

Submitter: K. Norman
On Behalf Of: self
Committee: House Committee On Climate, Energy, and Environment
Measure, Appointment or Topic: HB3119

Please pass HB3119 without delay.

I urge delaying these rules and getting rid of them all together.

Oregon is already one of the cleanest economies in the country.

Our forests absorb and lock up an estimated 49.5 million metric tons of carbon dioxide equivalent each year.

The rate of Oregon's forest carbon sequestration is the highest of the western states, and one of the highest in the country.

No need to punish our economy further.
