Measure, Appointment or Topic: HB3119

I support this bill. I believe that stopping the use of diesel fuel will cause harm to this state and further increase the cost of goods to hard working Oregonians. I know many people that drive diesel trucks that also would support this bill. Changing to EVs is unsustainable at best and actually is worse for the environment with the batteries that can't be disposed of and cause more damage to the roads, not to mention the drain to the electric grid if all vehicles are EVs and the child labor used to make EV batteries.
