Resources, and Water

Measure, Appointment or Topic: HB3143

Co-Chairs Helm, Owen and Committee Members -

I urge you to support HB 3143.

This Bill will enable agriculturalists, livestock producers and landowners to voluntarily aid in the recovery of beaver in our state, thereby increasing water security in a regional environment suffering increasing variability in quantity and timeliness of precipitation. It will also help protect local ecological health and bio-diversity in a time of their decline. It is entirely voluntary, entirely benign - and entirely advantageous to Oregon's human and non-human populations.

Please support this excellent Bill.

Thank you,

Wally Sykes
