

Submitter: Maria Armstrong

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and Water

Measure, Appointment or Topic: HB3173

I am a proud native backyard gardener.

- Oregon has 4,886 unique plant species that grow without cultivation. Of these, 70% are native species, and 120 are endemic and grow only in Oregon.
- The oregonflora.org website offers sophisticated search and plant identification tools, 1.48 million mappable plant occurrence records, 63,000+ color field photos, and fact sheets for every plant taxon.
- Oregon's economy depends upon its botanical resources. Healthy forests, productive rangelands, agricultural operations, outdoor recreation sites, and native plant horticultural businesses all need reliable data which OregonFlora provides.
- The requested support will leverage 30 years of research, volunteer effort, and citizen science contributions to develop the OregonFlora resources. Sustainable support will help ensure it is maintained.
