I am adamantly opposed to House Bill 2301! The last thing wealthy heirs and heiresses need is to become wealthier! Over the decades, inheritance taxes have been so reduced that the rich-poor gap has ever widened, and why, to hoard, to travel, to buy luxury goods? Farms and other family land passed down are adequately protected in Oregon law, from loss. There is no reason to further benefit the haves while taking from those who have less, by reducing state revenue. A crazy low rate is an insult to the fairness we stand for as Oregonians. NO to House Bill 2301!!
