

Submitter: Leasa Allington

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB2301

Greetings to the members of the Oregon House Revenue Committee. For every hour you put into your responsibilities my family puts in an hour to maintain a stable and successful family owned and operated business. In a few years, when you are finished with your public service there is no law, that I am aware of, that will take away your personal property and money. Please view my family's working hours the same as you view yours. Please support HB 2301 which will help release some of the pressure we feel about the future. Thanks in advance, Leasa Allington
