

Submitter: Tricia Hafner

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB2301

I am writing in strong support of HB 2301.

Many families in Oregon are generational farmers and while the equipment and property have value the owners do not. They are forced to sell off their family homesteads that have been in the family for over a century. When all they wanted was to keep that peice of family history alive and operating. Allowing this generational success to continue is what every parent, grandparent, ect. hopes for.

Thank you for your time

Tricia Hafner
