

Submitter: Elisha Shephard

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB2980

Dear Representatives,

Please support this bill! Lots of hard work by many factions have gone into drafting this bill so that wildlife can better coexist with humans. Human encroachment into wild areas will certainly continue, and we need to do all we can to maintain the ecosystems already in place. Mitigation of impacts is a win-win and this is a rare opportunity to achieve that legislatively.

Please vote YES!

Sincerely,
Elisha Shephard
