

Submitter: Janet Navarra

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB2980

As an Oregonian and member of a hunting family, I very strongly support HB2980. Our increasing and changing human population will benefit from public education on how to live with wildlife. We need meaningful resources for wildlife rehabilitation centers that directly serve communities.

HB 1980 is the least we can do

Thank you.

Janet Navarra
