

Submitter: Andy Oldenburg

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure, Appointment or Topic: SB916

To allow a striking worker to access unemployment insurance would remove any degree of risk for the workers. Why wouldn't you strike if you were paid to do so? This seems like opening a large can of worms that will drive prices up even higher in Oregon. We cannot be the state that leads the way on every liberal ideal in this country. I support unions and I want fair wages, but this is too large of a transfer of power to the workers.
