Committee: House Committee On Revenue

Measure, Appointment or Topic: HB2301

Oregon's estate tax steals wealth, that was already taxed during life, from the dead hands of people who saved to take care of their families. My family started in poverty and we all had to sacrifice and work to attain success. Oregon's government recklessly spends money on boondoggles, and the last thing I want my family's hard-earned money to go to is greedy politicians who feel entitled to our bank accounts. I don't support ANY estate tax, because it's theft from grieving families, but this bill is a good start.
