

Submitter: Alice Taylor

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure, Appointment or Topic: SB916

To whom it may concern:

I am writing in support of SB 916.

I am one of the 5000 nurses who are currently on strike with Providence Health Systems. I firmly believe that while I have always been employed, standing up to large corporations takes time money and courage. My whole life I have spent caring for others before myself. Now my employer has decided to not protect me, our patients, and our community. I am fighting with very few resources as a single parent and standing up to corporate greed and hopefully sending a message state and nationwide that insurance greed and Wealthcare systems will take notice that it is not ok to NOT take of us who are taking of you.
