RE: Support for SB 916

To the Senate Committee On Labor and Business,

As I watch how Providence is treating their nurses during contract negotiations, I see that it is absolutely necessary to have unemployment insurance. Personally, I have not ever used unemployment, so to have that option if I was fighting for what I believe in, I would want that backup (paycheck) while I'm fighting.

Thank you for accepting my testimony and I look forward to your support,
Jennifer RN
