

Submitter: Cheryl Smith

On Behalf Of:

Committee: House Committee On Revenue

Measure, Appointment or Topic: HB2301

As a small business in a rural agricultural community I fully support this bill. My business depends on the economy of this rural county. It makes me sad and mad that century farms are having to be split up and for the amount of taxes I have to pay for a small business that can barely create a family wage income. I would love to see my business grow and prosper but without the passage of this bill I am afraid that it won't happen.
