Committee: House Committee On Revenue

Measure, Appointment or Topic: HB2301

I am in support of this bill. My Mother thought that she had her estate planned. Instead, she left a mess which took a forensic bookkeeper, estate lawyer, and a CPA. Oregonians rank #3 in the nation as the poorest due to high taxes (income tax, property tax, CAT tax). Their personal income shrinks. Oregon State government is ranked fourth biggest in the nation measure by per capita spending. Oregon has more tax cash than 46 other states. Families should not have to pay again for their ranch land or family dwelling.

This bill needs to pass and be put on the floor for a vote.
