

Submitter: Kyle Garvey

On Behalf Of:

Committee: Senate Committee On Natural Resources and  
Wildfire

Measure, Appointment or  
Topic: SB769

Iv been hunting sense I was a kid I'm 28 now. I spend most of my springs and fall and winter in the woods, when it comes spring time I see more wolves then anything but I see more cougars then I see bears we have a population issue. Running dogs for cats would be huge for us. You can judge size, age, and gender of the animal to harvest the proper one. Right now cats are over populated in our county of wallowa, deer and elk numbers have plumeted. We need a new way to control these predators. Dogs or a point system to do it would make a difference. I hope you get this.

Thank you,  
Kyle Garvey
