

Submitter: Oregon Nurse  
On Behalf Of:  
Committee: Senate Committee On Labor and Business  
Measure, Appointment or Topic: SB916

RE: Support for SB 916

To the Senate Committee On Labor and Business,

Providence has too few nurses to safely take care of patients and the current salary of Providence nurses is lower than other health care facility in the state. So the nurses are trying to correct these deficiencies at risk to themselves. Financial support at this time would help to improve health care in Oregon.

Thank you for accepting my testimony and I look forward to your support.  
Oregon Nurse
