

Submitter: Chris McVey
On Behalf Of:
Committee: Joint Committee On Transportation
Measure, Appointment or Topic: HB3155

Hello,

I support this as it happens in many other states all across the USA. This can increase revenue for small business and help others who cannot afford a standard vehicle to travel short distances for work, food, groceries, ect ect ect. We can easily take examples from the many other states that all ready enact these practices.

Thanks,
Chris
