

Submitter: Karen Scott

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure, Appointment or Topic: SB916

Unemployment insurance was created for those who lost their job due to no fault of their own. People who strike voluntarily quit. That is not the intention of the law. Employers pay into the system, why should they be taxed twice? Please leave the program as it was intended- to provide assistance to those who lost work or are on temporary layoff. This is not an entitlement. Please reconsider.

Sincerely,

Karen Scott
