

Submitter: Angela Hahn

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure, Appointment or Topic: SB916

I'm writing to ask that this bill be passed. Employers have the upper hand over employees who are striking for better working conditions as the employers often have much deeper pockets. If striking workers could receive unemployment, they could continue to contribute to the economy by purchasing groceries, etc. As, I have been striking, we have had to make a lot of cuts to our budget - which means less money being put back into the local economy.
