

Submitter: Jared Rickenbach

On Behalf Of:

Committee: Joint Committee On Transportation

Measure, Appointment or Topic: HB3155

I support this bill. It would allow our farmers and agg professionals to utilize equipment easier and to have it comply and be insured correctly. It will also open up the ability to utilize these vehicles around OHV parks to commute from trail to trail legally.

This would also align Oregon with other states and promote tourism and consistency accross state boundaries.

Thank you for your consideration.
