

Submitter: Dawn Warnaca  
On Behalf Of: Central Oregon S x S  
Committee: Joint Committee On Transportation  
Measure, Appointment or Topic: HB3155

Please consider allowing our fully registered Side by Sides to be used getting to and from trails and our camps by using existing roads. We moved from Washington state three years ago, and find trailering the S x S just the few miles to ride such a hassle! Please look to Washington, they allow s x s on roads less that 35mph - thank you so much. We could use our recreational vehicle more, and not have to load it onto the trailer and into the toy hauler just to get across to the trail riding area. Much appreciated!
