Dear Committee Members

We already have states near us in which the top of the food chain predators have lost most if not all their protections. SCIENCE and studies will tell you that by protecting these species that the rest of the animals in the habitat are better off and it makes for a more normal and healthy environmental balance.

The idea that, once again we lose our democratic standing by allowing fringe elements to override our collective rights, WHAT THE HELL????

DO THE RIGHT THING AND DISALLOW THIS STUPID TRAVESTY, ESPECIALLY BY USING DOGS. .... WOLVES HAVE BEEN LITERALLY TORTURED IN OTHER STATES.
