Measure, Appointment or
Topic: SB769

I am so surprised at the cruelty of man even though I should expect it. SB 769 is cowardly. The public has already spoken up and wants this practice banned Get help from organizations to relocate the cougars. They are just trying to survive. Man has encroached on their territory by developing more and more land for real estate projects. Spare some of that land for the wild animals, most of which were here before man.
