I strongly oppose this . This will give unions so much power that it is not equitable . I am a nurse of over 20 years and I do NOT want my tax dollars going towards unemployment of persons who choose to strike . The current nurses strike with Providence is a good example ... I would argue strongly that ONA didn't bargain in good faith because their goal was to have all the contracts expire at the same time which can only happen if the current strike happened . They want complete power and to cripple the health care system . Again, I strongly appose my tax paying monies to go towards this ridiculous bill
