

Submitter: Marshall Seedorff

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: SB769

The use of dogs is one of the only effective methods to manage mountain Lion populations. The dogs and hounds man can effectively manage a population to sustainable population goals while also allowing for recreation and civilian participation in conservation. Dogs are especially effective at targeting lions prone to human conflict in areas where wild land and urban land meet. I support the use of dogs to hunt mountain lions.
