

Submitter: James Mullen
On Behalf Of:
Committee: Senate Committee On Labor and Business
Measure, Appointment or Topic: SB916

Dear fellow Oregonians,

Please stop SB 916. We in this great state are blessed by beautiful natural landscapes, and beautiful people full of independent love for their community. We need you to help stop the current climate of rewarding those who damage this community. Namely those who refuse to contribute, and sow division through their social activism.

Unemployment insurance payments are not to aid protests. They are to aid persons and families who unexpectedly have lost income from employment.

We will be seeing much more unemployment in this state as the activists are working tirelessly to destroy any industry, company or lifestyle that they don't practice themselves.

The fears of federal government overreach are closer to reality every day the State entertains ideas such as legalized drugs, legalized vagrancy, legalized and subsidized racism and reparations and now legally subsidized pay for those who willfully walk off a job in protest.

Please help Oregon by focusing on legislation that betters society for all Oregonians, not by sowing division and the very seeds of our destruction.
