

Submitter: Jack Holt
On Behalf Of: self
Committee: Senate Committee On Labor and Business
Measure, Appointment or Topic: SB916

Senate Committee on Labor AND Business.

SB 916 is opposed for two primary reasons.

First. "Tell me how you pay me and I'll show you what I'll do" It is a bad idea that further emphasizes the anti-friendly Oregon business environment. You would be encouraging ever more strikes. It can only increase the financial burden on businesses to fund unemployment ... at the pleasure of government.

Second. The purpose of unemployment benefits originated to help folks who lost their jobs at no fault of their own. SB 916 would expand and materially change the purpose of the original stated purpose. How are voters, taxpayers, and citizens to believe any legislation will be confined to the original stated purpose and not morph into something unrecognizable?

Your NO vote is critical after your honest consideration.

Thank you. Jack Holt
