Measure, Appointment or Topic: SB916

It is totally ridiculous to pay strikers who are volunteering to walk off the job...the unemployment insurance system is there as an aid for people who INVOLUNTARILY lost their job. This bill will weaponize the system to support unions...a total misuse of public funds and political power. Vote NO on this bill. Its intent is improper and puts a burden on the taxpayers and is truly an inappropriate use of public funds of this loss-of-employment safety system. Vote NO.
