

Submitter: Robbie Rush

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure, Appointment or Topic: SB916

SB 916 is a looney idea. Where is the common sense in encouraging people to strike harming Oregon's economy and services that would also affect those supporting it? This would cause chaos, and huge gaps in the services our citizens need. This would only incentivize lazy workers to go on strike and encourage them to delay solutions, instead of rapidly negotiating bringing any strike to an end. It's hard enough for legitimate unemployment cases to draw their money. This would create more hardship and burden on an already hindered agency and create more hardship on Oregon businesses!
