

Submitter: Talon Case

On Behalf Of:

Committee: Senate Committee On Natural Resources and
Wildfire

Measure, Appointment or
Topic: SB769

Being raised as an avid outdoorsman has given me the opportunity to see what our beautiful state has to offer, but as of late what I'm seeing and hearing is a dramatic drop in the deer population while the increase of cougars is on the rise. Growing up I was raised that hunting season, camping and other outdoor activities is what brought my family and many like it together. SB 769 gives the communities where the cougar population has taken its toll on other big game an option to be proactive in restoring those populations.
