Senate Committee on Energy and Environment

Re: Senate Bill 551

Dear Chair Senator Sollman, Vice-Chair Senator Brock Smith and members of the committee:

Good idea. Let's hamstring more businesses with regulations. I'm sure they don't mind.

What exactly are the aims of this legislation? Aside from taking up time and resources from other, more pressing issues our state has.

The way I see it SB 551 is more micro-managing our affairs. Which seems to be the direction our state is going. Will this ever stop?

I am opposed to passing SB 551.

Regards,

Richard Wisner
