

Submitter: Timothy Scott Coe
On Behalf Of: SB 769
Committee: Senate Committee On Natural Resources and
Wildfire
Measure, Appointment or Topic: SB769

I am in support SB769. Predators are taking away the freedoms and traditions of our people. I understand and support Mt. Lions on the landscape, but just as the deer and elk, they must be appropriately managed. I have seen mule deer populations decrease substantially. In my lifetime, there is a chance mule deer populations will be eliminated from the landscape because of predators such as Mt. Lions. How will I be able to explain that to my grandchildren that, we as Oregonians allowed that to happen under our control.

Please consider this bill, as predators have greatly affected my traditions and lifestyle that my family has relied on for generations for food.

Respectfully,

Timothy Scott Coe
