

Submitter: Joshua Holt

On Behalf Of:

Committee: Senate Committee On Labor and Business

Measure, Appointment or Topic: SB916

In strong support of this bill. We as a community need workers to have the ability to bargain the contracts they need to do their work safely and fairly. If that means that the negotiations break down to the point of a work-stoppage, the government already allows the business to continue to make its revenue by hiring replacement workers. the government should allow the workers to receive the benefits of the insurance they have paid into when the bargaining unit members have called to take action and withhold their labor. Please vote yes on this bill.
