RE: Support for SB 916

To the Senate Committee On Labor and Business,

Unemployment would help greatly being a single income family and single mother. I have a house payment that needs to be paid. I need to be able to pay all my other bills and put food on the table. Standing on the line for a better contract is extremely important to me, so much that I have gone 29 days without a paycheck.

Unemployment would be so helpful so I can still stand up to providence and get what the community and us nurses deserve for a better Healthcare system. Thank you.

Thank you for accepting my testimony and I look forward to your support.

Christy Fenter RN
