RE: Support for SB 916

To the Senate Committee On Labor and Business,

I am on strike with my fellow coworkers to improve community health and well-being. Choosing to strike should not put my family at risk or cause continued strain within the community. I therefore full heartedly believe we should be entitled to the benefits of unemployment as it would be a detriment to Oregon for us to return to work. To enable us to make this sacrifice easier, we are then able to give back more as health care providers and citizens.

Thank you for accepting my testimony and I look forward to your support.
Emily RN
