RE: Support for SB 916

To the Senate Committee On Labor and Business,

I am one of thousands of nurses currently on strike at Providence, advocating not only for our rights as workers but also for the safety and care of our patients. We have borne the financial burden of this strike and are committed to staying on the line until we get the fair contract that we deserve. We cannot allow big corporations to win by forcing nurses to cross the strike line because they are now struggling to afford basic necessities for themselves and their families. This bill is crucial, as it would enable us to continue our strike, ensuring we can keep fighting for both the needs of our patients and the rights of the workers.

Thank you for accepting my testimony and I look forward to your support.
Brooke RN
