

Submitter: Heather Gray
On Behalf Of: The poor - fatherless - widows - nonprofits
Committee: Senate Committee On Energy and Environment
Measure, Appointment or Topic: SB551

I strongly oppose this bill. Governing does mean micromanaging plastics and destroying unity among the people. Government needs to stay out of our personal business and stick to what is constitutional. We're all aware of what plastics do to the environment, and we reuse them or avoid them. You're not going to stop the minority who do otherwise. Also, this bill would thwart innovative new plastics and other products. Thank you. Jesus loves you.
