

Submitter: Michael Reid

On Behalf Of:

Committee: Senate Committee On Natural Resources and  
Wildfire

Measure, Appointment or  
Topic: SB769

Cougar population have devastated elk and deer populations, but more importantly they endanger people in the wilderness and must be controlled.

In recent years cougar and human encounters have increased dramatically and created an environment that recreational activities for adults and definitely children have become very dangerous and more commonly deadly in wilderness areas.

Protect and prioritize people and control the cougar population.
