On Behalf Of: Mr Oregon OPPOSES SB 551
Committee: Senate Committee On Energy and Environment
Measure, Appointment or Topic: SB551

I OPPOSE [SB 551].

If [SB 551] was designed to get rid of single-use plastic bags, I would happily support the Legislation.

[SB 551] will cause too much disruption in our economy.

Plastics as well as other packaging materials need to be reviewed.

Plastics and Styrofoam must be gradually phased out of existence until 100% recycling of these materials is achieved.

[SB 551] will spur innovations in the Materials Engineering communities.

ZERO WASTE should be the focus.
