

Submitter: Benjamin Paroulek
On Behalf Of: All Children with Learning Challenges
Committee: House Committee On Education
Measure, Appointment or Topic: HB2953

I would like to lend my support to funding for children who have challenges in learning.

I served as a Presbyterian pastor in Oregon churches for 40 years and observed firsthand many children who were underserved and could have had a chance of success if they had received a robust support from our educational system.

Please consider the long-term impact and vote to fund our children!

Sincerely,
Rev. Benjamin M Paroulek
