

Submitter: Sean Elias

On Behalf Of:

Committee: House Committee On Climate, Energy, and Environment

Measure, Appointment or Topic: HB2738

Dear Oregon State Legislators,

I am writing in full support for Representative Travis Nelson's proposed House Bill 2738, which would fully ban the use of leaded gasoline fuel at the Portland International Raceway (PIR).

The people of North Portland have been fighting for almost a decade for the publicly owned and operated racetrack to ban leaded fuel at races. The health impacts of leaded gasoline on people, particularly children and the elderly, is well known and thoroughly documented. Furthermore, there have been extensive studies on the impact of leaded gasoline at racetracks specifically and the detriment to health in surrounding areas.

Please support the bill and vote to approve resolution HB 2738 to protect our community's health and well being.
