

Submitter: Sandy Rabine

On Behalf Of:

Committee: House Committee On Agriculture, Land Use, Natural Resources, and Water

Measure, Appointment or Topic: HB3419

I am totally against this bill, I want my representatives to oppose this bill. It could lower our property values and take away our rights pertaining to our well and property. It gives people who know nothing about wells the right to do anything they want. Plus you slide this in at the last moment trying to sneak it by homeowners. Please kill the bill and don't take away property owners rights. This could effect farming, our food, farms need water without people not knowing anything trying control the process which will just increase prices on everything. Please kill this bill for the right of people and keep government out of something they know nothing about and just want more control.
