

Submitter: Karon Johnson

On Behalf Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure, Appointment or Topic: HB3062

Dear Sirs, I strongly support HB 3062, which will require better planning for siting industrial developments near residential areas, hospitals, schools, or care facilities. All over the country we see the effects of putting industrial developments near neighborhoods and schools. The adverse effects of the noise, air pollution and the critical impact on residents' health are well documented. At the least, there should be policies to determine the adverse consequences of such industrial complexes on the people working and living nearby.

Thank you,
Karon Johnson
