Measure, Appointment or Topic: SB604

Western Oregon University's Destination Western program is essential to student success. It is scary to attend college because it's a new environment for students. They don't understand how college works. It is very different from high school and Destination Western helps students transition into college. This program is the reason students stay at college. If students don't feel like college is a home away from home, they will leave. This is a critical program for Western Oregon University.
