

Submitter: Larry Read

On Behalf Of:

Committee: House Committee On Emergency Management, General
Government, and Veterans

Measure, Appointment or Topic: HB3062

We support HB 3062 and am urging you to also support this bill. We live in a rural area within urban reserve boundary that is primarily residential development. The bill would help cities to plan for anticipated industrial development and by reducing incompatible industrial zoning, and also reduce public health and safety risks. It would also reduce hazardous conflicts like heavy industrial truck traffic and conflicts with pedestrian/bike use in school and residential zones. Also would reduce unintentional urban sprawl and hazards that harm watersheds, farms and forest areas. Thank you for listening.
