

Submitter: Anna Hernandez-Hunter

On Behalf Of:

Committee: Senate Committee On Education

Measure, Appointment or Topic: SB604

The Strong Start Program, called Destination Western on our campus, has been a key support program the last couple of years for our students. This is especially true for the students I have direct contact with, students from low-income, first generation and/or marginalized populations. This program has allowed students the opportunity to begin their college journey feeling connected and prepared. I urge you to support SB 604 so we can continue to provide our students with the support they need to be successful in their journey through higher ed.
