

Submitter: Melisa Manuel
On Behalf Of:
Committee: House Committee On Emergency Management, General
Government, and Veterans
Measure, Appointment or Topic: HB3062

Dear Committee,
HB 3062 bill is the best.

My name is Melisa, I am a student from Parkrose School, and I am part of the Parkrose community. Something you should know about my community is that they are very generous. I am affected by clean air because I am always breathing it in. I always go out with my little brother to the park and I know other people that like going out for a walk are also affected by it. First of all I think you should support bill 3062 Second, the air in Parkrose would be cleaner without the Prologis distribution center, and we should have been asked about whether we wanted this trucking center. Third, HB 3062 prevents that from happening to other communities.

I have family and friends that like going out for walks outside and friends that play sports and if they build the prologis distribution the air wouldn't be good for them it can also affect the community by stopping them from going outside to play and they will have to start playing indoor and I don't think people would like that, they would get tired of being inside and in need of fresh air.

Thank you for listening to me about why you should support Bill 3062.
