

Submitter: Cesar Favela

On Behalf Of:

Committee: House Committee On Emergency Management, General Government, and Veterans

Measure, Appointment or Topic: HB3062

My name is Cesar, Favela Ramos. And I want to express my support for HB 3062. This bill would have prevented the construction of the warehouse near the school, and I want you to know that the community and people in that community are disappointed for not letting them know about the building. They worried about the air quality; since this may or can affect people's lives.

And I am for the bill, because risks poses significant development to the community as for everyone, the reason on why I'm telling you this is, because people didn't want more traffic nor wanted to have long term effect towards sickness to everyone, but the youth is will be most affected; since, they will have symptoms on to their respiratory system from Diesel Pollutants emitted from the trucks going to the warehouse.

The Parkrose community had already been through enough like, burned neighborhoods, too much traffic, pollution and violence. The city needs to know about this community and the well being for the community. Because if you and the city don't, the community will fear, and lead to anger. Anger to hate. Hate leads to suffering. And this community deserves better, and I trust that you will prioritize the safety of the Parkrose residents in your decision making progress. Please support HB3062.

Sincerely,
Parkrose student Cesar, Favela Ramos
