

Submitter: Anthony Rosas

On Behalf Of:

Committee: House Committee On Emergency Management, General  
Government, and Veterans

Measure, Appointment or Topic: HB3062

My name is Anthony Rosas. I am a part of the parkrose community and something you should know about my community is that we are the most diverse in high school. school in Oregon. I am asking you to support HB 3062.

The reason I support this bill is because I go to Parkrose high school and I care about my health and everyone that's in my community. The ones that have to worry about the air mostly are the kids that take the bus to school or walk to school. I want there to not be so much pollution for people who are outside.

When I go to the park to play basketball I take the bus that's diesel and I have to breath that smoke like when it stops to get into the bus and even then i'm outside playing basketball I have to breath in that air the whole entire time.
